Product Content Designer with 6+ years across technical documentation, product design, and front-end development. I turn complex technical concepts into clear and accessible content, from design systems to operational guides and training. Fluent English, native Italian.

Technical Documentation Designer

Smile.CX, Cagliari *September 2025 – Present*

- Write technical documentation for the platform: operational guides, feature docs, and component specs (200+ UI components)
- Design and deliver internal training for varied audiences (call centre operators, operations, sales), up to 50+ attendees in hybrid sessions
- Reduce support requests by anticipating gaps and edge cases in operational guides used by departments of hundreds

Product Designer

Covisian, Cagliari *August 2023 – August 2025*

- Designed user flows, wireframes, and design-system components in Figma
- Owned all application copy for consistency, inclusivity, and accurate EN/IT localisation
- Ran usability testing with stakeholders and iterated on findings

Front-end Developer

Covisian, Cagliari *July 2020 - August 2023*

- Built clean, reusable Web Components with TypeScript and StencilJS/Ionic; tested with JestJS
- Documented components using StorybookJS and Docsify

Content Designer

Savini Group UK, London *September 2018 – March 2020*

Produced marketing graphics, copy, and newsletters via MailChimp (125,000 subscribers); managed the WordPress site

Customer Relations Manager

Rainforest Cafe, London *November 2014 – September 2018*

Supervised 160 staff and 1,500+ daily customers; handled recruitment, customer relations, and daily financial closures

QA Localisation and Translation Tester

Pole to Win Europe, London *October 2014 - September 2015*

Tested Nintendo titles for linguistic accuracy and functional bugs; translated EN → IT

Skills
